

SCANNING SERVICES

LightJet & Frontier Scan Size Reference

The chart below is provided for the convenience of our customers who are requiring scans for their digital output needs. The 150 p.p.i and 300 p.p.i. columns represent the minimum recommended and maximum accepted resolutions for our LightJet and Frontier prints. When determining your scan resolution needs, take into consideration the level of usable detail in your original. Higher quality originals may benefit from 300 p.p.i. scans, where as lesser quality and smaller originals that are soft or have less usable detail may print adequately at lower resolutions.

Print size	150 p.p.i. Megs	300 p.p.i. Megs	Print size	150 p.p.i. Megs	300 p.p.i. Megs	Print size	150 p.p.i. Megs	300 p.p.i. Megs

Drum and Flatbed Scans

Our high resolution Howtek and Isomet Drum Scanners can capture originals, reflective or transparencies, up to 20"x24". All of our transparency scans are oil mounted to ensure the quality of the scan. RGB colorspace only. Our flatbed can also scan originals, reflective or transparencies, up to 8.5"x14.

See Lightjet for quantity discount pricing.

	Up to 25 megs	26-50 megs	51-100 megs	101-200 megs	201- 400 megs	401+ megs
Drum Scan	\$28.00	\$44.00	\$66.00	\$100.00	\$140.00	\$160.00
Flat Bed scans	\$13.75	\$22.00	\$33.00	\$50.00	\$70.00	\$80.00
Scan Back			\$66.00			

Flat Bed scans are not dust busted for scan only to disk.

Discount pricing on Drum or Flatbed scans only

Originals: 10-24 - 10% 25-49 - 15% 50+ - 20%

Normal service: 48 hours 24 Hour service add 50% surcharge Less than 8 hours add 100% surcharge

For Artist's buying Limited Edition Fine Art Prints we now offer a 50% discount on drum scanning and digital scan back scans when accompanied with a print order, 16x20 or larger.

Sigma Film Scans

Using the latest in CCD technology, the Sigma scanner by Durst produces high quality scans for reproduction at an extremely affordable cost. And to make things even easier on the budget, we offer several "flavors" to choose from. These scans are an excellent value, and some end user optimization may be needed.

**Write to a CD-R disc for an additional \$2.00 or supply your own.
Index prints at the time of scanning - \$2.50 per disc.**

Uncut Web Scans

A 1200 x 1800 (approx) scan from each exposure on the uncut roll. Color is auto-adjusted. For custom adjustments please see our Custom Scans below. Files are saved as RGB tiff. Full image scans only, custom cropping requires custom scans.

Format	Price Per Roll	Format	Price Per Roll
135/24	\$11.95 6.4 MB (uncompressed)	120	\$19.95 9.3 MB (uncompressed)
135/36	\$17.95 6.4 MB (uncompressed)	220	\$36.00 9.3 MB (uncompressed)

Cut Web Scans

A 1200 x 1800 (approx) scan from cut strips and slides, priced per scan. Color is auto-adjusted. For custom adjustments please see our Custom Scans below. Files are saved as RGB tiff. Full image scans only, custom cropping requires custom scans.

Format	Tiff Size	1-10	11-20	21-50	51-100	101+
35mm	6.4 MB (uncompressed)	\$4.60	\$3.70	\$2.95	\$2.15	\$1.95
120 to 4x5	9.3 MB (uncompressed)	6.90	5.50	4.25	3.25	2.95

Economy Scans

These scans are for our more experienced customers who are adept at making their own corrections. We recommend that these users work in a calibrated and color managed workflow environment. Digital ICE scratch and dust removal is applied at the time of scanning, but no other corrections are made. Files will be saved as tiff, unless specified otherwise. Full image scans only, custom cropping requires custom scans.

Megabytes*	1-10	11-20	21-50	51-100	101+
25	\$9.00	\$8.73	\$8.10	\$7.47	\$7.02
50	11.50	11.00	10.30	9.50	8.97
100	13.50	13.10	12.15	11.21	10.53
200	15.50	15.04	13.95	12.87	12.09
201+	19.00	18.43	17.10	15.77	14.82

Custom Scans

These scans are operator adjusted to within reasonable accuracy. Digital ICE scratch and dust removal is applied during scanning. Files are saved as tiff unless specified otherwise. This service is required if cropping is requested.
